

Titan Mining Advances Toward NYSE American Listing

Gouverneur, NY – October 27, 2025 – Titan Mining Corporation (TSX: TI; OTCQB: TIMCF) (“Titan” or the “Company”), an existing zinc concentrate producer in upstate New York and an emerging natural flake graphite producer, a key component in the broader rare earths and critical minerals ecosystem, today announced that it is advancing rapidly toward listing on the NYSE American, with required administrative steps now well underway.

In connection with the listing, Titan’s Board has approved a consolidation on the basis of one new Common Share for every 1.5 existing Common Shares (the “Consolidation”), subject to approval of the Toronto Stock Exchange (the “TSX”).

The Consolidation is being undertaken solely to align Titan with typical U.S. market standards. It will not affect any shareholder’s proportionate ownership of Titan. Following the Consolidation, final approval of the NYSE American, and the filing effectiveness of the Company’s Form 40-F registration statement with the United States Securities and Exchange Commission, Titan expects its Common Shares to begin trading on the NYSE American under the symbol “TII”. Trading on the OTCQB under the symbol “TIMCF” will continue until the commencement of trading on the NYSE American. Trading on the TSX will continue under the symbol “TI”.

Further details regarding the Consolidation will be made available in the coming days.

Rita Adiani, President and Chief Executive Officer, commented:

“Securing NYSE American pre-clearance is a key milestone in Titan’s growth trajectory. We look forward to expanding our U.S. investor base as we advance development of a leading U.S.-focused critical-materials platform anchored in New York State.”
